## In the Specification:

Please amend the specification as follows:

## On page 1, line 1, insert the following paragraph: ANTIGENIC COMPOSITION OF A PSEUDOMONAS AERUGINOSA PROTEIN On page 1, line 5, insert the following paragraph: BACKGROUND OF THE INVENTION On page 1, line 29, insert the following paragraphs: BRIEF DESCRIPTION OF THE DRAWING Figure 1 depicts the separation of a protein preparation from P. aeruginosa by SDS-PAGE, and the position of Pa60 as visualized by protein staining. DETAILED DESCRIPTION OF THE INVENTION On page 2, line 6, replace the paragraph beginning with "In a preferred embodiment" with the following paragraph: In a preferred embodiment the protein has the following N-terminal sequence: Xaa-E-E-K-Xaa-Xaa-Xaa-Xaa-Xaa-Xaa-Xaa-Xaa-V-V-Xaa-N-A; and preferably: Xaa-E-E-K-T-P-L-T-T-A-A-Xaa-A-P-V-V-Xaa-N-A.
